TOWNSHIP OF
CARLING

October 14, 2025 Council Meeting

Hello, Carling Followers! Here are some key highlights from Council's most recent meeting on October 14th.

- As part of the Consent agenda, Council passed a resolution in support of the Town of Parry Sound's request urging the Province to expedite the completion of the remaining 68 kilometres of four-laning the highway between Parry Sound and Sudbury

- Council passed a resolution to open Shore Road Allowance Application SRA 2025-04 pertaining to the closure and conveyance of a shore road allowance in fronting a property of Fred Dubie Road. A by-law will be brought back to Council for consideration at a future meeting.

- Council revisited its discussion on the Georgian Bay Aspiring Geopark, a matter first brought forward in May following a deputation in opposition to the initiative. Before determining how to proceed, Council directed staff to invite a delegation from the Geopark group to present their perspective.

- Council passed a resolution adopting the 2025 Asset Management Plan. This is a long-term strategic document that municipalities are required to have to help manage its infrastructure assets.

- Council discussed the survey markers that have recently appeared throughout the Township. To date, the Township has not received any official information regarding their placement. It is believed that the markers may be related to a fiber installation project by one of the major service providers in the area. The Township has reached out to the provider for clarification but has not yet received a response.
